Catching a Crab.

The amateur "catches crab," because he is an amateur.

In such things a man must have experience to prevent getting into trouble.

Not so fares the amateur in clothing if he comes to us.

Our tickets show just what kind of goods the garments are made of, whether "Foreign" or "Domestic," also the price in plain figures.

Therefore, a child can buy us as safely as the parent. In fact, when the responsibility is thrown entirely on us, we are more careful than with a person who knows what he wants better than we do.

Absolutely but one price.
